## CAREER SUMMARY

With over ~3 years of experience as a developer on the Google Cloud Platform, I have developed expertise in administering Google Workspace environments, managing reseller operations, and building robust APIs. I possess a strong foundation in API development and SQL. I consistently strive to leverage my skills to drive innovation and efficiency. I am committed to continuous learning and am always eager to apply my knowledge to enhance the value I bring to my role.

## EXPERIENCE

### Tata Consultancy Services, Hyderabad, India — Google Cloud Developer

APR 2021 - PRESENT

## PROJECTS

### GOOGLE BUSINESS UNIT - Google Cloud Developer

#### Google Workspace Implementation: (Nationwide customer)

- Implemented the standalone Google Workspace Console setup for a nationwide customer, ensuring a seamless transition to cloud-based collaboration tools.
- Provisioned users in Google Workspace Console, both individually and in bulk, ensuring efficient onboarding and access management.
- Managed user accounts and applied specific organizational policies for consistent access control and streamlined user experience.
- Assigned appropriate IAM (Identity and Access Management) roles to users based on their job functions, ensuring least-privilege access and improving organizational security.
- Enabled Multi-Factor Authentication (MFA) for all users as an added layer of security, improving overall account protection against unauthorized access.
- Enabled download restrictions in Google Drive to prevent unauthorized distribution of sensitive data.
- Set up and enforced retention policies in Google Workspace, ensuring that important data was retained for compliance while removing unnecessary files.

## SKILLS

Cloud Computing  
Google Cloud Platform (GCP)  
Google Cloud Workspace  
Microsoft Excel  
SQL  
Bigquery  
Looker Studio

## ACHIEVEMENTS

Won Learning Achievement Award for 2 Consecutive Quarters

## LANGUAGES

English  
Telugu  
Hindi

## CERTIFICATIONS

Certified Associate Cloud Engineer by Google Cloud.

Certified Google Workspace Administrator by Google Cloud.

Certified Google Cloud Architect by Google Cloud.

## Reseller for Google Cloud Products:(C&S Wholesale Grocers)

- Coordinated with internal support teams to create subdomains under the production environment for reseller console setup, ensuring smooth and efficient operations.
- Managed the process of switching client billing accounts to the reseller console, ensuring accurate account transitions.
- Oversaw the reseller console for 32 subdomains, segmented by geographic regions and support for clients in various countries.
- Created and managed budgets and alerts for cloud consumption, ensuring clients stayed within their target consumption limits .
- Implemented cost management strategies by monitoring usage and proactively addressing consumption trends.
- Procured Marketplace products tailored to customer requirements, ensuring the right solutions were selected and deployed for their specific business needs.
- Acted as the primary point of contact for clients, providing technical support and guidance for their Google Cloud deployments and services.
- Regularly assessed and improved internal processes related to cloud billing, reporting, and product procurement, driving efficiencies across the reseller console operations.

## Google Cloud Migration Factory:

- Designed and developed REST APIs using C# and SQL in Google Cloud Shell.
- Built, tested, and deployed REST APIs, ensuring functionality with rigorous testing using Postman.
- Gained hands-on experience in creating YAML files and Dockerfiles to containerize applications and ensure seamless deployment to cloud environments.
- Developed and optimized stored procedures in PostgreSQL for efficient data processing.
- Worked extensively with BigQuery for querying.

## EDUCATION

### GMR Institute of Technology — *Bachelor of Technology*

JULY 2016 - SEPTEMBER 2020

Passed out with **6.5** aggregate in the Department of Information Technology in GMRIT affiliated from JNTUK. Rajam, Andhra Pradesh.
